Temporary  
move for  
open air  
market

(Continued from page 1)

While work is underway the open air market will have to be temporarily moved from its current location in Merchants Street. Negotiations have been started to find a new location for the market.

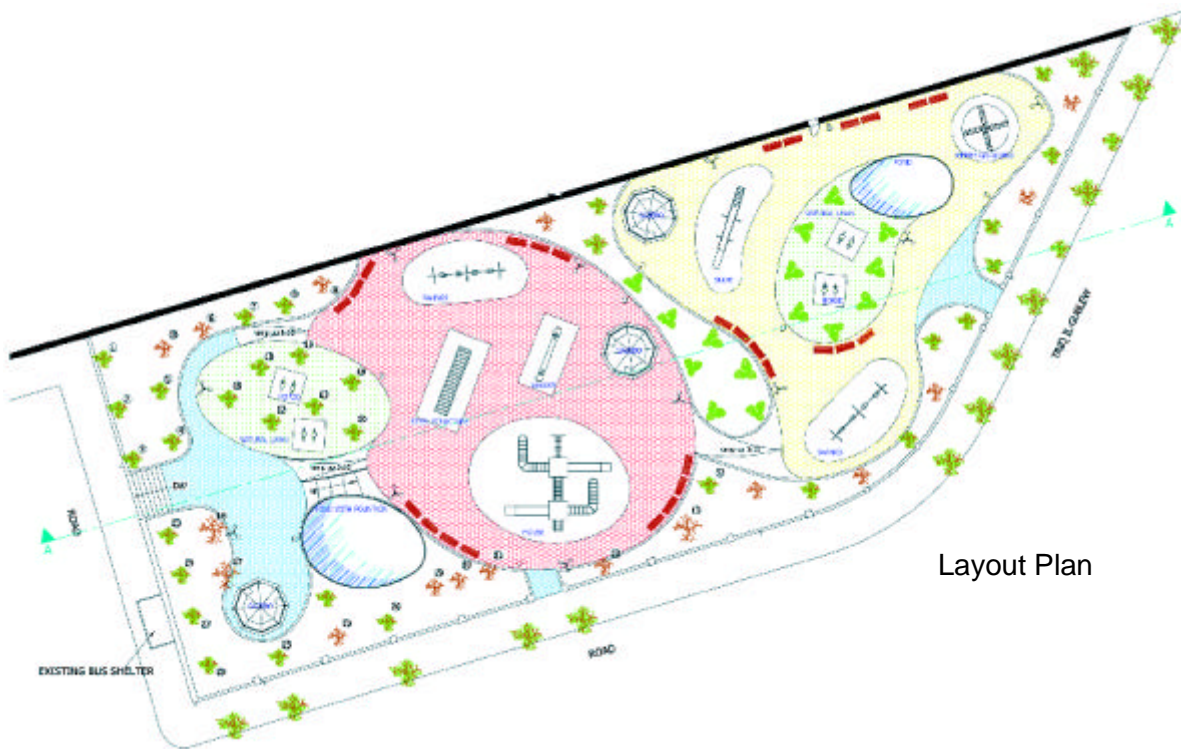

The plan of Merchants Street which will be pedestrianised will already have been approved by the Council.

The committee has approved to set up a series of benches, trees and appropriate street furniture to ensure the work is carried out in the best possible manner.
